DETAILED ACTION

Statutory Text in Previous Office Action

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior office action.

Claim Rejections - 35 U.S.C. § 102

Claim 13 is rejected under 35 USC 102(b) as being anticipated by Maase (US 5,825,474). The scope and breadth of the claim language does not preclude Maase who discloses an electro-optical biometric image capturing system 10 comprising platen 14, and an electric heating element 104 incorporated in each platen cover 24, 26. See Figs. 1-3 and col. 4, lines 33-65 and col. 5, lines 44-55. The platen covers 24, 26 each constitute "a surface of the electro-optical biometric image capturing system" and such surfaces are outside of the optical path. Accordingly, the electric heaters are attached to surfaces of the image capturing system that are outside the optical path.

Allowable Subject Matter

Claims 16-22 are allowable over the art of record.

Response to Arguments

Applicant's arguments have been considered but are deemed to be moot in view of the new grounds of rejection.
